

# Become a PCI Fellow

Gain experience in Technology Commercialization • Part-Time Works around your current program at Penn

The Penn Center for Innovation (PCI) is seeking highly-talented, scientifically-trained candidates for the PCI Fellows Program.

PCI Fellows is an experiential program that trains participants in academic research commercialization. Typical projects include invention reviews, marketing material development, and supporting startups.

- Graduates progress to careers in IP Law, Technology Transfer, consulting, and entrepreneurship.
- >100 Fellows have graduated from the program

**Only open to Penn Masters & PhD students and Post-doctoral research staff**

Selection is based on:

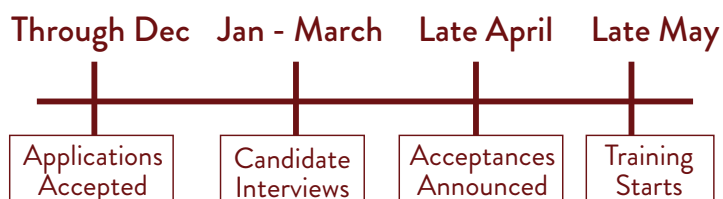

- Commitment for ~10 hours a week
- Strong written communication skills
- Support from advisor/supervisor to engage in the program
- U.S. employment eligibility for part-time on-campus work
- Ability to explain complex issues succinctly and clearly

## How to Apply

Apply at [pci.upenn.edu/fellows](https://pci.upenn.edu/fellows)

Deadline: 11/30/2022

Application requires a technology assessment
